

SolarX Grand Challenge 2022-23

International Solar Alliance, in partnership with Invest India is hosting the SolarX Grand Challenge to promote startup ecosystem by mobilizing resources for solar startups. This will help ISA discover innovative, cost-effective, & scalable solutions for the solar energy sectors in it's member countries.

SolarX is targeted to span across various geographies, with different editions being held annually in different regions. The first edition is focused on Africa, aiming to promote innovation & identify local solutions, with the over-arching objective of capacity building.
